### **A NOTE ON SAFETY**

We've done all we can to assure this press offers the utmost in safety, but you have to do your Ref# amount of warning can take the place of your good judgment. so make sure it's the first thing you bring to any job.

Beyond that here are some obvious tips.

Steel and other materials can shatter, so always use protective eyewear that complies with the appropriate ANSI code.

If you detect anything that may indicate imminent structural failure stop using the press immediately and inspect it thoroughly.

Bolt the press to the floor if it is to be used on bulky or unstable items.

Do not use press to compress springs or any other item that could disengage and cause a potential hazard.
